Plant Spring Hill's Everbearing STRAWBERRIES

You will have fresh fruit to eat, preserve, can and freeze this summer and fall. All varieties listed on this page will BEAR THIS SUMMER AND FALL. We recommend hill culture, plant 12 inches square in beds or rows. Fertilize liberally with complete fertilizer as Sacco (Sacco prices, see order blank). Then mulch the ground heavy with straw, sawdust, lawn clippings, ground corn cobs or compost. Keep runners clipped off so plants do not grow too thick. Water in dry weather. A small bed will keep you in fresh fruit when cared as described above. It is a fine way to make extra money. Berries sell out of season for 50c a quart or more. Not less than 25 plants sold.

Big crops, easy to pick berries that have a sweet, mild flavor. Many people say blueberries can only be grown in acid or sour soils. It is no trick to grow good blueberries if you make the soil acid. Blueberries like an abundance of peat, oak leaves, pine needles or any acid organic matter. Mix soil thoroughly with aluminum sulfate if soil is sweet. We send sufficient aluminum sulfate with each order for 1st year. Plant no less than two varieties for pollination. Plants grow a life time and are beautiful for landscaping any yard.

HOW TO PLANT EVERGREENS—Plant evergreens immediately upon arrival so they do not dry out. Dig hole 8 to 10 inches larger than the ball of earth or root spread if wrapped in peat and shipped bare-root. Set evergreen 1 to 2 inches deeper than soil marks on the trunk. Fill hole half full of rich top soil, firm well, then water.

EVERGREEN DIGGING NOTICE—All evergreens for shipping will be fresh dug from our field bare root and wrapped in moist peat. Present day delivery and packing costs make it too expensive to ship balled and burlapped. Our experience shows that bare root evergreens deliver better and grow just as well. Balled and burlapped evergreens available at nursery.

Hundreds of Balled and Burlapped evergreens at reduced prices this fall. Many sizes and varieties not listed in catalog. Drive to the nursery for choice landscape varieties all growing in our nursery.
